

FABRIC SHIELD

FABRIC PROTECTOR

PRODUCT CODE: 214

DESCRIPTION AND PRODUCT BENEFITS:

FABRIC SHIELD is a quick-drying protectant designed for use on natural and synthetic fabrics. FABRIC SHIELD does not block fabric breathability or destroy the fabric feel; providing superior repellency and stain resistance while leaving no residual odour.

DIRECTIONS OF USE AND APPLICATION:

1. Use FABRIC SHIELD at full strength, do not dilute with water or any other chemical. 2. Spray FABRIC SHIELD evenly over the area of application. 3. Allow FABRIC SHIELD to cure for 6 hours. Tips: FABRIC SHIELD can be applied to wet materials; however, for best results apply to dry fabrics. 1 L of FABRIC SHIELD is equal to 25 m² (250 ft²) of fabric coverage.

PRECAUTIONS:

FABRIC SHIELD may cause discolouration when used on white or light-coloured fabrics, particularly cotton and silk. Do not use on fabrics that come into direct contact with foam backing materials; backing may dissolve and discolour fabric. Test all fabrics in an inconspicuous area for colour fastness. Do not mix with water or other chemicals. Dry sprayers before filling with FABRIC SHIELD. Keep from freezing.

HEALTH & SAFETY INFORMATION:

For further information on the safe handling, storage and precautions for use of this product, consult the Safety Data Sheet. Keep out of reach of children.

DISCLAIMER:

As the actual conditions of use are out of our control no liability is accepted for any loss or damage caused directly or indirectly through the use of our products. Intending users should satisfy themselves, by carrying out appropriate tests, as to the suitability of this product for any particular purpose.

TYPICAL DATA:

- APPEARANCE:** Clear liquid.
- SPECIFIC GRAVITY:** ~0.77 g/ml
- ODOUR:** Slight solvent odour.
- SOLUBILITY:** Insoluble.
- % NON-VOLATILE:** ~13.0
- VISCOSITY:** Water thin.
- FLASH POINT:** ~ 30°C

AVAILABLE SIZES:

A21412 - **JUG** - 3.78 L / 1 US GAL
BA214 - **WORKPLACE LABEL**
